Index of Authors

Numerals followed by the letter A refer to Abstracts of Communications read at Meetings for Original Communications of The Nutrition Society

AL-ARABI, A. & ANDREWS, J. F. Neuropeptide Y and noradrenaline together cause significant weight loss in obese rats 40A

ALLEN, P. *see* MOLONEY, A. P. 14A

ANDREWS, J. F. Comparative physiology of brown adipose tissue 237–241

ANDREWS, J. F. *see* AL-ARABI, A. 40A

ANDREWS, J. F. *see* HOULDEN, M. 2A

ANDREWS, J. F. *see* JAKOBSON, M. E. 8A

ANDREWS, J. F. *see* MCCOY, CATHERINE 25A

ANDREWS, J. F. *see* MCKEE, GABRIELLE 6A

ANDREWS, J. F. *see* MURPHY, CHRISTINE 4A

ANGUS, K. W. *see* SUTTLE, N. F. 71A

ARBUTHNOTT, ELINOR Brown adipose tissue: structure and function 177–182

ARBUTHNOTT, ELINOR *see* MURPHY, CHRISTINE 4A

ARCH, J. R. S. The brown adipocyte β-adrenoceptor 215–223

ARNOLD, J., LITTLE, R. A. & ROTHWELL, NANCY J. Chronic effects of endotoxin infusion on energy balance and brown adipose tissue in the rat 16A

ARNOLD, J. *see* CHOO, J. J. 149A

ARNOLD, J., SHIPLEY, K., SCOTT, N., LITTLE, R. A. & IRVING, M. H. Thermogenic response to parenteral nutrition in septic man 72A

ASH, S. A. & GRIFFIN, G. E. The effect of total parenteral nutrition on protein synthesis in endotoxaemic rats 56A

AYNSLEY-GREEN, ALBERT New insights into the nutritional management of newborn infants derived from studies of metabolic and endocrine inter-relations during the adaptation to post-natal life 283–292

BAKER, A. *see* CHARLTON, C. P. J. 116A

BALLA, H. G., HERBERT, E., MUNRO, C. S. & SUTTLE, N. F. Assessing the efficacy of a soluble glass bolus as a slow-release source of copper, cobalt and selenium for sheep 86A

BARKER, M. E. *see* CARVILLE, D. G. M. 35A

BARKER, M. E. *see* LIVINGSTONE, M. B. E. 21A

BARKER, MARGO E. *see* STRAIN, J. J. 27A

BARKER, MARGO E. *see* STRAIN, J. J. 65A

BARKER, MARGO E., THOMPSON, KATE A., EVASON, EILEEN M. T. & WOODS, ROBERTA The nutritional intake of schoolchildren in Northern Ireland—a comparison of two school-meal systems 74A

BARKER, MARGO E., THOMPSON, KATE A., STRAIN, J. J., WRIGHT, MARION E., REID, NORMA G., WILLIAMSON, A. P., MCKENNA, P. G. & MCCLEAN, SALLY I. Energy and nutrient intakes of the population of Northern Ireland 31A

BASSETT, J. M. Hormones and metabolic adaptation in the newborn 263–269

BATES, P. C. *see* JANAKAT, SANA M. 137A

BATES, P. C. *see* OMER, A. 62A

BEEVER, D. E. *see* FITCH, N. A. 76A

BEEVER, D. E. *see* PELL, J. M. 83A

BEHN, ALISON *see* WOOTTON, S. A. 57A

BELL, A. W. *see* LEURY, B. J. 93A

BENNETT, W. M., CONNACHER, A. A., SMITH, K., JUNG, R. T. & RENNIE, M. J. Lack of insulin stimulation of skeletal muscle protein synthesis in type I diabetic subjects during amino acid infusion 100A

BIBBY, D. C. & GRIMBLE, R. F. Effect of tumour necrosis factor α on temperature and zinc metabolism in weanling, young, adult and elderly rats 162A

BIBBY, D. C. & GRIMBLE, R. F. Hypothermic and pyrogenic effects of recombinant tumour necrosis factor α in rats 18A

BIBBY, D. C. & GRIMBLE, R. F. Leukotrienes and prostaglandins may be involved in the hypothermic effects of recombinant tumour necrosis factor α in rats 112A

BIBBY, D. C. & GRIMBLE, R. F. Modification of the metabolic effects of recombinant human tumour necrosis factor α by diets rich in coconut oil 69A

BIGNELL, W. W. *see* GROVUM, W. L. 3A

BIRMINGHAM, A. T. *see* BUCK, J. J. 134A

BLACKBURN, GEORGE L. *see* WAN, JENNIFER M.-F. 315–335

BLAKE, DAVID *see* MERRY, PETER 363–369

BLAKEBOROUGH, P. *see* TURNBULL, A. J. 145A

BLAKEBOROUGH, PETER, SMALES, CAROLINE, NEVILLE, SHEILA G. & ROLLS, BRIAN A. The effect of diets adequate and deficient in calcium on the activities of plasma membrane ATPases in the hearts and diaphragms of normotensive and spontaneously hypertensive rats 146A

BLANCHFLOWER, W. J. *see* O'HARTE, F. P. M. 142A

BLANCHFLOWER, W. J. *see* RICE, D. A. 141A

BLAYDON, P. *see* PRENTICE, A. M. 152A

BONE, J. M. *see* GREEN, CERI J. 73A

Index of Subjects

Numerals followed by the letter A refer to Abstracts of Communications read at Meetings for Original Communications of The Nutrition Society

Acute-phase proteins
Clinical and nutritional aspects of changes in acute-phase proteins during inflammation **48**, 347–354, 1989

β-Adrenoreceptor
The brown adipocyte β-adrenoceptor **48**, 215–223, 1989

β_2-Adrenoreceptor agonist
Effects of treatment with 3,5,3′-triiodothyronine and clenbuterol on skeletal and cardiac muscle mass in the rat **48**, 165A, 1989
Effects of a β_2-adrenoreceptor agonist clenbuterol on body-weight and muscle protein in endotoxin-treated rats **48**, 149A, 1989

Alcohol
The effects of acute and chronic ingestion of *n*-3 and *n*-6 polyunsaturated fats on ethanol-induced gastric haemorrhage in the rat **48**, 15A, 1989

Allantoin
Uric acid and allantoin in plasma and saliva of sheep **48**, 88A, 1989

Amino acid supply
Optimizing amino acid and protein supply and utilization in the newborn **48**, 293–301, 1989

Amino acids
The effect of amino acids on the stability of total parenteral nutrition mixtures **48**, 118A, 1989

α_2-Antagonist
Effect of a specific α_2-antagonist on weight gain of genetically obese Zucker rats **48**, 164A, 1989

Anthelmintics
Towards an optimum oral dose of cobalt in anthelmintics in lambs **48**, 87A, 1989

Antibiotics
Polymyxin B suppresses the stimulation of lipogenesis in brown adipose tissue of rats after an oral load of glucose **48**, 42A, 1989

Antibodies
Circulating and secretory antibodies to specific food proteins in adults **48**, 131A, 1989
Salivary and serum antibodies to gliadin in treated and untreated coeliac disease **48**, 41A, 1989

Antioxidant enzymes
Sex differences in blood antioxidant enzyme activities in human beings **48**, 35A, 1989

Antioxidants
Blood antioxidants, cholesterol and colorectal cancer in Ireland: preliminary results **48**, 135A, 1989

Appetite suppressant
Are ketone bodies an appetite suppressant? **48**, 105A, 1989

Aqua Libra®
The acute effects of two fruit-based soft drinks on blood acid-base status **48**, 171A, 1989

ATPase activity
The effect of diets adequate and deficient in calcium on the activities of plasma membrane ATPases in the hearts and diaphragms of normotensive and spontaneously hypertensive rats **48**, 146A, 1989

Avoparcin
Manipulation of rat caecal metabolism by including Avoparcin and pectin in the diet **48**, 139A, 1989

Basal metabolic rate
Interactions between the intensity of exercise and the residual effect on metabolic rate **48**, 129A, 1989
Physique and basal metabolic rate of Gurkha soldiers serving in Britain **48**, 128A, 1989

Bile
Enhancement of biliary copper excretion in sheep **48**, 158A, 1989
The effect of D-penicillamine with and without xylazine on copper excretion by sheep **48**, 159A, 1989

Blood acid-base status
The acute effects of two fruit-based soft drinks on blood acid-base status **48**, 171A, 1989

Blood pressure
Effect of food intake on orthostatic tolerance and finger tremor in healthy young subjects **48**, 134A, 1989

Body composition
An improved method for measuring whole body fat and protein changes **48**, 126A, 1989
Effects of moderate and rapid weight loss on body composition in obese (*falfa*) Zucker rats **48**, 28A, 1989

Body fat
An improved method for measuring whole body fat and protein changes **48**, 126A, 1989
Comparison of electrical impedance and skinfold techniques to measure body fat **48**, 107A, 1989

Body fat measurements
Body fat in lean and obese women measured by six methods **48**, 23A, 1989

Body image
Misinterpretation of body image: implications for exercise participation **48**, 98A, 1989

Body mass index
Body mass index in a sample of Filipino adults in relation to broad occupational categories **48**, 127A, 1989

Body temperature
Acute central effects of interleukin-6 on body temperature, thermogenesis and food intake in the rat **48**, 48A, 1989

Body temperature changes during inflammation: their mediation and nutritional significance **48**, 337–345, 1989
Effect of tumour necrosis factor α on temperature and zinc metabolism in weanling, young, adult and elderly rats **48**, 162A, 1989
Hypothermic and pyrogenic effects of recombinant tumour necrosis factor α in rats **48**, 18A, 1989

Breast-feeding
The nutritive and metabolic advantages of homologous milk **48**, 271–281, 1989

Brown adipose tissue
An enzyme-linked immunosorbent assay for the measurement of uncoupling protein in brown adipose tissue **48**, 20A, 1989
Bovine brown adipose tissue iodothyronine 5′-deiodinase activity during development **48**, 34A, 1989
Brown adipose tissue and nutritional energetics—where are we now? **48**, 165–175, 1989
Brown adipose tissue in humans **48**, 243–256, 1989
Brown adipose tissue: structural changes related to nutritional status in the mouse **48**, 4A, 1989
Brown adipose tissue: structure and function **48**, 177–182, 1989
Central control of brown adipose tissue **48**, 197–206, 1989
Central effects of interleukin-1β and tumour necrosis factor-α on brown adipose tissue thermogenesis in genetically obese rats and mice **48**, 148A, 1989
Chronic effects of endotoxin infusion on energy balance and brown adipose tissue in the rat **48**, 16A, 1989
Comparative physiology of brown adipose tissue **48**, 237–241, 1989
Continuous cold *v.* choice of cold: effect of different foraging regimens on brown fat acclimation in mice **48**, 8A, 1989
Corticosteroid inhibition of thermogenesis in obese animals **48**, 231–235, 1989
Does brown adipose tissue have a role to play in glucose homeostasis? **48**, 207–214, 1989
Effect of fasting and refeeding on uncoupling protein-mRNA levels in rat brown adipose tissue **48**, 24A, 1989
Effect of thyrotropin-releasing hormone and an analogue, RX77368, on thermogenesis and weight gain in genetically obese Zucker rats **48**, 147A, 1989
Enhanced thermogenic effects of D-fenfluramine following neurotoxic lesions of central 5-hydroxytryptamine in the rat **48**, 38A, 1989
Molecular biology of brown adipose tissue **48**, 183–187, 1989
Morphological changes in brown adipose tissue lipids during cold acclimation in the golden hamster (*Mesocricetus auratus*) **48**, 6A, 1989
Perinatal changes in iodothyronine 5′-deiodinase activity in rat brown adipose tissue **48**, 32A, 1989
Reactivation of brown adipose tissue **48**, 225–230, 1989
Studies on the purine nucleotide binding site of the uncoupling protein of brown adipose tissue mitochondria **48**, 22A, 1989
The brown adipocyte β-adrenoceptor **48**, 215–223, 1989
The effect of overfeeding following cold-acclimation on energy balance and brown adipose tissue thermogenesis in mice **48**, 12A, 1989
The effect of recombinant human tumour necrosis factor and lymphotoxin on the sympathetic firing rate of efferent nerves to brown adipose tissue **48**, 50A, 1989
The role of brown adipose tissue in diet-induced thermogenesis **48**, 189–196, 1989
Thermogenic activity and capacity of brown adipose tissue during the seasonal hibernation cycle in Richardson's ground squirrel **48**, 10A, 1989
Why is there increased lipid droplet size in brown adipose tissue of genetically obese (*ob/ob*) mice? **48**, 2A, 1989

Brush-border membrane
The effects of dietary ligands and zinc uptake by brush-border-membrane vesicles **48**, 145A, 1989

Caecal metabolism
Manipulation of rat caecal metabolism by including Avoparcin and pectin in the diet **48**, 139A, 1989

Calcined magnesite
Dietary availability and rumen solubility of calcined magnesite sources **48**, 7A, 1989
Sodium bicarbonate and calcined magnesite supplementation for lactating dairy cows **48**, 9A, 1989

Calcium
The effect of diets adequate and deficient in calcium on the activities of plasma membrane ATPases in the hearts and diaphragms of normotensive and spontaneously hypertensive rats **48**, 146A, 1989

Calcium transport
Unidirectional calcium fluxes across the isolated rumen mucosa of goats as affected by 1,25-$(OH)_2D_3$ **48**, 163A, 1989

Cancer
Blood antioxidants, cholesterol and colorectal cancer in Ireland: preliminary results **48**, 135A, 1989
Increased protein turnover with normal energy metabolism in response to feeding in patients with lung cancer **48**, 102A, 1989
No effect of β-carotene on the incidence of bladder cancer in *N*-butyl-*N*-(4-hydroxybutyl)-nitrosamine treated rats **48**, 136A, 1989
The determination of tumour protein synthesis rates in patients with colorectal carcinoma using the 'flooding dose' technique **48**, 101A, 1989

Whole-body protein turnover and skeletal muscle protein synthesis in small-cell lung cancer patients of normal weight **48**, 49A, 1989

Carbonated drinks
Absorption of deuterium from an orally ingested isotonic carbohydrate–electrolyte solution and a carbonated, low-alcohol drink **48**, 97A, 1989

β-Carotene
No effect of β-carotene on the incidence of bladder cancer in *N*-butyl-*N*-(4-hydroxybutyl)-nitrosamine treated rats **48**, 136A, 1989

Children
Preschool children: an investigation of β-cell status, nutrient intake and growth **48**, 130A, 1989

Cholesterol
Blood antioxidants, cholesterol and colorectal cancer in Ireland: preliminary results **48**, 135A, 1989

Cigarette smoking
Effect of cigarette smoking and age on selenium status **48**, 59A, 1989

Clenbuterol
Effects of a β_2-adrenoreceptor agonist clenbuterol on body-weight and muscle protein in endotoxin-treated rats **48**, 149A, 1989
Effects of treatment with 3,5,3′-triiodothyronine and clenbuterol on skeletal and cardiac muscle mass in the rat **48**, 165A, 1989

Cobalt
Towards an optimum oral dose of cobalt in anthelmintics in lambs **48**, 87A, 1989

Cobalt deficiency
Methylmalonic acid in the rumen of cobalt-deficient sheep and its effect on plasma methylmalonic acid **48**, 141A, 1989

Coconut oil
Modification of the metabolic effects of recombinant human tumour necrosis factor α by diets rich in coconut oil **48**, 69A, 1989

Coeliac disease
Salivary and serum antibodies to gliadin in treated and untreated coeliac disease **48**, 41A, 1989

Collagen
The effect of increasing concentrations of dietary β-aminopropionitrile on collagen cross-linkage in streptozotocin-diabetic rats **48**, 137A, 1989

Colon
Secretion in the colon of the pseudo-germ-free rat **48**, 90A, 1989
The effect of *Escherichia coli* enterotoxin STa on electrogenic secretion in the starved and undernourished rat colon **48**, 19A, 1989
Urea absorption by the functioning human colon **48**, 117A, 1989

Congenital heart disease
High-energy feeding in infants with congenital heart disease **48**, 156A, 1989

Cooking
The influence of heat on the antimicrobial effect of fermented Ghanaian maize dough **48**, 138A, 1989

Copper
Assessing the efficacy of a soluble glass bolus as a slow-release source of copper, cobalt and selenium for sheep **48**, 86A, 1989
Effects of dietary changes in zinc and copper levels on rabbit liver metallothionein-like protein **48**, 13A, 1989
Enhancement of biliary copper excretion in sheep **48**, 158A, 1989
Influence of homocysteine on copper status in the rat **48**, 160A, 1989
The effect of D-penicillamine with and without xylazine on copper excretion by sheep **48**, 159A, 1989
The effect of in vitro zinc deficiency on Zn and copper ion concentration and intracellular enzyme activity in Molt-3 cells **48**, 161A, 1989

Copper balance
Copper balance in intravenously fed patients **48**, 114A, 1989

Copper status
Effects of dietary methionine supplementation on copper status in the rat **48**, 11A, 1989

Corticosteroids
Corticosteroid inhibition of thermogenesis in obese animals **48**, 231–235, 1989

Crohn's disease
Inflammatory bowel disease: nutritional implications and treatment **48**, 355–361, 1989
The value of home parenteral nutrition in Crohn's disease **48**, 120A 1989

Cystic fibrosis
Faecal energy, fat and nitrogen losses in patients with cystic fibrosis using pancreatic replacement therapy **48**, 57A, 1989

Cytokines
Cytokine regulation of acute-phase protein synthesis by human hepatocytes **48**, 110A, 1989

Diabetes
Effect of insulin on whole-body leucine kinetics in post-absorptive, non-insulin dependent (type 2) diabetic patients **48**, 51A, 1989
Lack of insulin stimulation of skeletal muscle protein synthesis in type I diabetic subjects during amino acid infusion **48**, 100A, 1989
The effect of increasing concentrations of dietary β-aminopropionitrile on collagen cross-linkage in streptozotocin-diabetic rats **48**, 137A, 1989

Dietary fibre
Diurnal variation in large bowel metabolism in rats given diets with and without wheat bran **48**, 52A, 1989
Effects of dietary wheat bran on activities of key enzymes of lipid and carbohydrate metabolism in rat liver **48**, 54A, 1989
The effects of fibre and phytate on zinc absorption in normal subjects **48**, 115A, 1989
The intestinal microflora is required for the stimulation of intestinal epithelial cell proliferation by dietary fibre **48**, 140A, 1989

Dietary survey
Energy and nutrient intakes of the population of Northern Ireland **48**, 31A, 1989
Nutrient intakes of high- and low-sugar consumers during pregnancy **48**, 46A, 1989
The validity of a food frequency questionnaire in assessing specific nutrient intakes in a group of females **48**, 94A, 1989
Diet-induced thermogenesis
The role of brown adipose tissue in diet-induced thermogenesis **48**, 189–196, 1989
Diet record
How comparable are the results of a food frequency questionnaire to a 24 h diet record? **48**, 125A, 1989
Digestion
Adaptations of digestive systems in non-ruminant herbivores **48**, 59–67, 1989
Donkeys
Voluntary food intake and digestion of hay and straw diets by donkeys and ponies **48**, 169A, 1989
Dopamine
The effect of a low-dose intravenous dopamine infusion on gastric pressure **48**, 43A, 1989
Doubly-labelled water method
Comparison of heart rate monitoring with the doubly-labelled water [$^2H_2{}^{18}O$] method for measurement of energy expenditure in free living subjects **48**, 68A, 1989
The use of weighed dietary records and the doubly-labelled ($^2H_2{}^{18}O$) water method to compare energy intake and expenditure **48**, 21A, 1989

Electrogenic ion secretion
Electrogenic ion secretion in the small intestine of the pseudo-germ-free rat **48**, 17A, 1989
The effect of *Escherichia coli* enterotoxin STa on electrogenic secretion in the starved and undernourished rat colon **48**, 19A, 1989
Electrolyte absorption
Improved absorption rates of water and electrolytes from a hypotonic solution compared with two isotonic oral rehydration solutions in the intact human jejunum **48**, 144A, 1989
Endocrine control
Endocrine control of metabolic adaptation during lactation **48**, 23–32, 1989
Endotoxin
Chronic effects of endotoxin infusion on energy balance and brown adipose tissue in the rat **48**, 16A, 1989
Effects of a β_2-adrenoreceptor agonist clenbuterol on body-weight and muscle protein in endotoxin-treated rats **48**, 149A, 1989
The effect of total parenteral nutrition on protein synthesis in endotoxaemic rats **48**, 56A, 1989
Energy balance
Brown adipose tissue and nutritional energetics—where are we now? **48**, 165–175, 1989
Chronic effects of endotoxin infusion on energy balance and brown adipose tissue in the rat **48**, 16A, 1989
Energy balance in acute illness **48**, 73A, 1989
Energy cost of growth
Energy cost of growth during infancy **48**, 303–312, 1989
Energy expenditure
Comparison of heart rate monitoring with the doubly-labelled water [$^2H_2{}^{18}O$] method for measurement of energy expenditure in free living subjects **48**, 68A, 1989
Estimation of energy expenditure by heart rate: a validation study **48**, 66A, 1989
Failure to detect hypermetabolism in elderly mental patients suffering acute wasting **48**, 152A, 1989
Glucose utilization rates and the thermogenic effect of infused glucose in critical illness **48**, 155A, 1989
The effect of a turpentine-induced inflammatory response or triple hormone infusion on energy expenditure in rats **48**, 70A, 1989
The energy cost of a menopausal hot flush **48**, 95A, 1989
The metabolic rate of oxen after work **48**, 153A, 1989
The underlying 'resting' energy consumption of oxen during work **48**, 154A, 1989
Energy intake
Dietary energy and carbohydrate intakes of runners in relation to training load **48**, 170A, 1989
Effect of voluntary exercise training and detraining on energy intake and body-weight gain: implications for existence of regulatory thermogenesis **48**, 30A, 1989
Energy intake during the menstrual cycle: little change at ovulation **48**, 25A, 1989
High-energy feeding in infants with congenital heart disease **48**, 156A, 1989
The effect of prefeeding lipid on energy intake from a meal **48**, 106A, 1989
The use of weighed dietary records and the doubly-labelled ($^2H_2{}^{18}O$) water method to compare energy intake and expenditure **48**, 21A, 1989
Energy metabolism
Energy metabolism and fuel selection during high-energy feeding: a case study **48**, 77A, 1989
Enteral feeding, intensive
Nutrition improved with intensive enteral feeding in children awaiting liver transplantation **48**, 116A, 1989
Enterotoxin
The effect of *Escherichia coli* enterotoxin STa on electrogenic secretion in the starved and undernourished rat colon **48**, 19A, 1989
Environmental temperature
Activation of non-shivering thermogenesis, brown adipose tissue respiration and uncoupling protein by short daily cold exposure **48**, 44A, 1989

Continuous cold *v.* choice of cold: effect of different foraging regimens on brown fat acclimation in mice **48**, 8A, 1989
Effects of cold exposure on mitochondrial GDP binding and uncoupling protein concentration in brown adipose tissue of lean and obese (*ob/ob*) mice **48**, 26A, 1989
Morphological changes in brown adipose tissue lipids during cold acclimation in the golden hamster (*Mesocricetus auratus*) **48**, 6A, 1989
Perinatal changes in iodothyronine 5'-deiodinase activity in rat brown adipose tissue **48**, 32A, 1989
The effect of overfeeding following cold-acclimation on energy balance and brown adipose tissue thermogenesis in mice **48**, 12A, 1989

Epidural analgesia
The influence of epidural analgesia on post-operative fatigue **48**, 108A, 1989

Epithelial renewal
Effects on volatile fatty acid production and gut epithelial proliferation of adding haricot beans to a wholemeal bread diet **48**, 47A, 1989

Ethel Cruickshank
Obituary notice, Ethel Cruickshank (14 November 1898–17 January 1989) **48**, 153–154, 1989

Exercise
Dietary energy and carbohydrate intakes of runners in relation to training load **48**, 170A, 1989
Effect of voluntary exercise training and detraining on energy intake and body-weight gain: implications for existence of regulatory thermogenesis **48**, 30A, 1989
Effects of exercise on lactational performance in cattle **48**, 92A, 1989
Fetal glucose metabolism during maternal exercise and undernutrition in pregnant ewes **48**, 93A, 1989
Interactions between the intensity of exercise and the residual effect on metabolic rate **48**, 129A, 1989
Misinterpretation of body image: implications for exercise participation **48**, 98A, 1989

Faecal energy
Faecal energy, fat and nitrogen losses in patients with cystic fibrosis using pancreatic replacement therapy **48**, 57A, 1989

Fat deposition
Growth and weights of abdominal and carcass fat in sheep immunized against adipose cell membranes **48**, 14A, 1989

Fatty acids
Modification of rheumatic symptoms by diet and drugs **48**, 363–369, 1989
The relative effects of recent dietary intakes and adipose tissue levels of linoleic acid on the linoleic acid content of plasma free fatty acids of healthy volunteers **48**, 29A, 1989

Fermented maize dough
The influence of heat on the antimicrobial effect of fermented Ghanaian maize dough **48**, 138A, 1989

'Flooding dose' technique
The determination of tumour protein synthesis rates in patients with colorectal carcinoma using the 'flooding dose' technique **48**, 101A, 1989

Folate deficiency
Histidine oxidation in folate-deficient chicks **48**, 91A, 1989

Folic acid
Folic acid and vitamin B_{12} status of a sample of the Northern Ireland population **48**, 27A, 1989

Food industry
Has the food industry benefited from the science of nutrition? **48**, 159–163, 1989
Has the science of nutrition benefited from the food industry? **48**, 155–158, 1989

Food intake
Effect of food intake on orthostatic tolerance and finger tremor in healthy young subjects **48**, 134A, 1989
How comparable are the results of a food frequency questionnaire to a 24 h diet record? **48**, 125A, 1989
Patterns of food and nutrient intake in the chronically unemployed consuming high and low levels of table sugar **48**, 132A, 1989
The effect of prefeeding lipid on energy intake from a meal **48**, 106A, 1989
Voluntary food intake and digestion of hay and straw diets by donkeys and ponies **48**, 169A, 1989

Food proteins
Circulating and secretory antibodies to specific food proteins in adults **48**, 131A, 1989

Gallinaceous birds
The importance of invertebrate food to chicks of gallinaceous species **48**, 113–133, 1989

Gastric emptying
The effect of a low-dose intravenous dopamine infusion on gastric pressure **48**, 43A, 1989

Gastric haemorrhage
The effects of acute and chronic ingestion of *n*-3 and *n*-6 polyunsaturated fats on ethanol-induced gastric haemorrhage in the rat **48**, 15A, 1989

GDP binding
Effects of cold exposure on mitochondrial GDP binding and uncoupling protein concentration in brown adipose tissue of lean and obese (*ob/ob*) mice **48**, 26A, 1989

Geese, domestic
Nutrition of domestic geese **48**, 103–111, 1989

Gliadin
Salivary and serum antibodies to gliadin in treated and untreated coeliac disease **48**, 41A, 1989

Glucose
Glucose utilization rates and the thermogenic effect of infused glucose in critical illness **48**, 155A, 1989
Starvation reduces the rate of oxidation but not the rate of storage of infused glucose **48**, 103A, 1989
Glucose homeostasis
Does brown adipose tissue have a role to play in glucose homeostasis? **48**, 207–214, 1989
Fetal glucose metabolism during maternal exercise and undernutrition in pregnant ewes **48**, 93A, 1989
Glycine
Urinary excretion of 5-oxoproline in severe inflammatory illness **48**, 75A, 1989
Growth
Energy cost of growth during infancy **48**, 303–312, 1989
Preschool children: an investigation of β-cell status, nutrient intake and growth **48**, 130A, 1989
Growth hormone
Hormone and nutrient interaction in the control of growth: role of growth hormone and insulin-like growth factor-1 **48**, 83A, 1989
The effect of growth hormone on hind-limb muscle protein metabolism in growing lambs **48**, 96A, 1989
Gurkha soldiers
Physique and basal metabolic rate of Gurkha soldiers serving in Britain **48**, 128A, 1989

Haricot beans
Effects on volatile fatty acid production and gut epithelial proliferation of adding haricot beans to a wholemeal bread diet **48**, 47A, 1989
Heart
Effects of dietary lactose or sucrose on tissue oxidative metabolic capacity in male and female rats **48**, 157A, 1989
Heart rate
Comparison of heart rate monitoring with the doubly-labelled water [$^2H_2{}^{18}O$] method for measurement of energy expenditure in free living subjects **48**, 68A, 1989
Estimation of energy expenditure by heart rate: a validation study **48**, 66A, 1989
Hibernation
Thermogenic activity and capacity of brown adipose tissue during the seasonal hibernation cycle in Richardson's ground squirrel **48**, 10A, 1989
Histidine oxidation
Histidine oxidation in folate-deficient chicks **48**, 91A, 1989
Homocysteine
Influence of homocysteine on copper status in the rat **48**, 160A, 1989
Hormones
Hormones and metabolic adaptation in the newborn **48**, 263–269, 1989
New insights into the nutritional management of newborn infants derived from studies of metabolic and endocrine inter-relations during the adaptation to post-natal life **48**, 283–292, 1989
Horse
Nutrition and the growth and racing performance of thoroughbred horses **48**, 141–152, 1989
The use of conventional and unconventional supplements in the thoroughbred horse **48**, 135–139, 1989
Hospital patients
Energy balance in acute illness **48**, 73A, 1989
Glucose utilization rates and the thermogenic effect of infused glucose in critical illness **48**, 155A, 1989
Hypermetabolism
Failure to detect hypermetabolism in elderly mental patients suffering acute wasting **48**, 152A, 1989
Hypertension
The effect of diets adequate and deficient in calcium on the activities of plasma membrane ATPases in the hearts and diaphragms of normotensive and spontaneously hypertensive rats **48**, 146A, 1989
Hyponatraemia
Water and ion redistribution in sepsis does not result in hyponatraemia **48**, 104A, 1989

Immature lungs
Extracellular proteolytic activity of hyperoxic-exposed preterm guinea-pigs **48**, 81A, 1989
Inflammation associated with oxygen injury in the preterm guinea-pig **48**, 60A, 1989
Immune function
Nutrition, immune function and inflammation: an overview **48**, 315–335, 1989
Immunization
Growth and weights of abdominal and carcass fat in sheep immunized against adipose cell membranes **48**, 14A, 1989
Infection
Does subclinical vitamin deficiency predispose to infection? **48**, 113A, 1989
Inflammation
An animal model of injury: the value of turpentine injections for studying the acute phase changes in tissue protein metabolism **48**, 79A, 1989
Body temperature changes during inflammation: their mediation and nutritional significance **48**, 337–345, 1989
Clinical and nutritional aspects of changes in acute-phase proteins during inflammation **48**, 347–354, 1989
Cytokine regulation of acute-phase protein synthesis by human hepatocytes **48**, 110A, 1989
Dietary molybdenum may enhance the inflammatory reaction to and hence rejection of gut nematodes in lambs **48**, 71A, 1989

Effect of endotoxin and turpentine injections on intestinal permeability in the rat **48**, 82A, 1989
Extracellular proteolytic activity of hyperoxic-exposed preterm guinea-pigs **48**, 81A, 1989
Inflammation associated with oxygen injury in the preterm guinea-pig **48**, 60A, 1989
Inflammatory bowel disease: nutritional implications and treatment **48**, 355–361, 1989
Modification of rheumatic symptoms by diet and drugs **48**, 363–369, 1989
Nutrition, immune function and inflammation: an overview **48**, 315–335, 1989
The effect of a turpentine-induced inflammatory response or triple hormone infusion on energy expenditure in rats **48**, 70A, 1989

Insulin
Effect of insulin on whole-body leucine kinetics in post-absorptive, non-insulin dependent (type 2) diabetic patients **48**, 51A, 1989
Lack of insulin stimulation of skeletal muscle protein synthesis in type I diabetic subjects during amino acid infusion **48**, 100A, 1989

Insulin-like growth factor-1
Hormone and nutrient interaction in the control of growth: role of growth hormone and insulin-like growth factor-1 **48**, 83A, 1989

Interleukin
Central effects of interleukin-1β and tumour necrosis factor-α on brown adipose tissue thermogenesis in genetically obese rats and mice **48**, 148A, 1989
The plasma interleukin-6, interleukin-1 and tumour necrosis factor response to elective surgery **48**, 111A, 1989

Interleukin-6
Acute central effects of interleukin-6 on body temperature, thermogenesis and food intake in the rat **48**, 48A, 1989

Intestinal permeability
Cross-sectional study of intestinal permeability in infants from a Gambian village **48**, 84A, 1989
Effect of endotoxin and turpentine injections on intestinal permeability in the rat **48**, 82A, 1989
Effect of systemic infection on intestinal permeability in man **48**, 80A, 1989

Intestine
The intestinal microflora is required for the stimulation of intestinal epithelial cell proliferation by dietary fibre **48**, 140A, 1989

Iodothyronine 5′-deiodinase
Bovine brown adipose tissue iodothyronine 5′-deiodinase activity during development **48**, 34A, 1989
Perinatal changes in iodothyronine 5′-deiodinase activity in rat brown adipose tissue **48**, 32A, 1989

Ion distribution
Water and ion redistribution in sepsis does not result in hyponatraemia **48**, 104A, 1989

Iron
Comparison of iron and zinc absorption in rat pups from human milk extrinsically labelled with ^{59}Fe and ^{65}Zn **48**, 39A, 1989

Iron status
Estimates of iron status in the Northern Ireland population **48**, 65A, 1989
The iron status of healthy, housebound, and hospitalized elderly women **48**, 67A, 1989

Jejunum
Improved absorption rates of water and electrolytes from a hypotonic solution compared with two isotonic oral rehydration solutions in the intact human jejunum **48**, 144A, 1989

Ketone bodies
Are ketone bodies an appetite suppressant? **48**, 105A, 1989

Lactation
Constraints on frequent or continuous lactation **48**, 45–51, 1989
Effects of exercise on lactational performance in cattle **48**, 92A, 1989
Endocrine control of metabolic adaptation during lactation **48**, 23–32, 1989
Evolutionary strategies in lactation: nutritional implications **48**, 53–57, 1989
Mammary development **48**, 17–22, 1989
Questions of validity in mammary physiology: methodology and ethics **48**, 1–7, 1989
Sources of variability in lactational performance **48**, 33–43, 1989
Synthetic and secretory processes of lactation **48**, 9–15, 1989

Lactose
Effects of dietary lactose or sucrose on tissue oxidative metabolic capacity in male and female rats **48**, 157A, 1989

Leucine kinetics
Effect of insulin on whole-body leucine kinetics in post-absorptive, non-insulin dependent (type 2) diabetic patients **48**, 51A, 1989
Post-absorptive whole-body protein turnover in surgical patients formerly maintained on a constant diet **48**, 53A, 1989

Leukotrienes
Leukotrienes and prostaglandins may be involved in the hypothermic effects of recombinant tumour necrosis factor α in rats **48**, 112A, 1989

Linoleic acid
The relative effects of recent dietary intakes and adipose tissue levels of linoleic acid on the linoleic acid content of plasma free fatty acids of healthy volunteers **48**, 29A, 1989

Lipid droplet size
Why is there increased lipid droplet size in brown adipose tissue of genetically obese (*ob/ob*) mice? **48**, 2A, 1989

Lipid metabolism
Effect of tumour necrosis factor α (TNF α-cachectin) on lipid metabolism during litter-removal in the lactating rat **48**, 61A, 1989
Lipogenesis
Polymyxin B suppresses the stimulation of lipogenesis in brown adipose tissue of rats after an oral load of glucose **48**, 42A, 1989
Liver metabolism
Effects of dietary wheat bran on activities of key enzymes of lipid and carbohydrate metabolism in rat liver **48**, 54A, 1989
Liver transplant
Nutrition improved with intensive enteral feeding in children awaiting liver transplantation **48**, 116A, 1989
Lymphotoxin
The effect of recombinant human tumour necrosis factor and lymphotoxin on the sympathetic firing rate of efferent nerves to brown adipose tissue **48**, 50A, 1989

Magnesium
Dietary availability and rumen solubility of calcined magnesite sources **48**, 7A, 1989
Sodium bicarbonate and calcined magnesite supplementation for lactating dairy cows **48**, 9A, 1989
Malnutrition
The effect of the level of dietary protein and the quality of dietary energy on urea kinetics in young children recovering from severe malnutrition **48**, 55A, 1989
Mammary development
Mammary development **48**, 17–22, 1989
Mammary physiology
Questions of validity in mammary physiology: methodology and ethics **48**, 1–7, 1989
Marsupial herbivores
Nutrition of marsupial herbivores **48**, 69–79, 1989
Menopausal hot flush
The energy cost of a menopausal hot flush **48**, 95A, 1989
Menstrual cycle
Energy intake during the menstrual cycle: little change at ovulation **48**, 25A, 1989
Metabolic rate
The metabolic rate of oxen after work **48**, 153A, 1989
Metabolism in the neonate
Hormones and metabolic adaptation in the newborn **48**, 263–269, 1989
Metallothionein-I
Tumour necrosis factor α enhances hepatic metallothionein-I content but reduces that of the kidney **48**, 64A, 1989
Methionine
Effects of dietary methionine supplementation on copper status in the rat **48**, 11A, 1989
Methylmalonic acid
Methylmalonic acid as an indicator of vitamin B_{12} deficiency in lambs fed on a cereal-based diet **48**, 142A, 1989
Methylmalonic acid in the rumen of cobalt-deficient sheep and its effect on plasma methylmalonic acid **48**, 141A, 1989
Milk
The nutritive and metabolic advantages of homologous milk **48**, 271–281, 1989
Mimosine
Breakdown of 3-(OH)-4-(1H)-pyridone by bacteria from the rumen of sheep in Venezuela **48**, 168A, 1989
Minerals
A novel, sustained-release rumen bolus for cattle, containing trace elements and vitamins **48**, 89A, 1989
Assessing the efficacy of a soluble glass bolus as a slow-release source of copper, cobalt and selenium for sheep **48**, 86A, 1989
Mobility
The effects of metabolic consequences of surgery on post-operative mobility **48**, 109A, 1989
Models
Animal models of metabolism in newborn infants **48**, 257–262, 1989
Molecular biology of brown adipose tissue
Molecular biology of brown adipose tissue **48**, 183–187, 1989
Molybdenum
Dietary molybdenum may enhance the inflammatory reaction to and hence rejection of gut nematodes in lambs **48**, 71A, 1989
Muscle function
The effect of acute food deprivation on contractile characteristics of rat skeletal muscles **48**, 167A, 1989
Muscle mass
Effects of treatment with 3,5,3′-triiodothyronine and clenbuterol on skeletal and cardiac muscle mass in the rat **48**, 165A, 1989

Nematodes
Dietary molybdenum may enhance the inflammatory reaction to and hence rejection of gut nematodes in lambs **48**, 71A, 1989
Neonatal nutrition
Animal models of metabolism in newborn infants **48**, 257–262, 1989
Energy cost of growth during infancy **48**, 303–312, 1989
Hormones and metabolic adaptation in the newborn **48**, 263–269, 1989
New insights into the nutritional management of newborn infants derived from studies of metabolic and endocrine inter-relations during the adaptation to post-natal life **48**, 283–292, 1989
Optimizing amino acid and protein supply and utilization in the newborn **48**, 293–301, 1989
The nutritive and metabolic advantages of homologous milk **48**, 271–281, 1989
Neuropeptide Y
Neuropeptide Y and noradrenaline together cause significant weight loss in obese rats **48**, 40A, 1989

Nitrogen metabolism
Nitrogen and glucose metabolism by the liver of forage- and forage–concentrate-fed cattle **48**, 76A, 1989

Non-ruminant herbivores
Adaptations of digestive systems in non-ruminant herbivores **48**, 59–67, 1989
Nutrition and the growth and racing performance of thoroughbred horses **48**, 141–152, 1989
Nutrition of domestic geese **48**, 103–111, 1989
Nutrition of farmed rabbits **48**, 93–101, 1989
Nutrition of marsupial herbivores **48**, 69–79, 1989
Nutritional ecology of the wild rabbit—an input to the timing of reproduction **48**, 81–91, 1989
The importance of invertebrate food to chicks of gallinaceous species **48**, 113–133, 1989
The use of conventional and unconventional supplements in the thoroughbred horse **48**, 135–139, 1989

Noradrenaline
Neuropeptide Y and noradrenaline together cause significant weight loss in obese rats **48**, 40A, 1989

Nutrient intake
Energy and nutrient intakes of the population of Northern Ireland **48**, 31A, 1989
The validity of a food frequency questionnaire in assessing specific nutrient intakes in a group of females **48**, 94A, 1989

Nutrient supply
Nitrogen and glucose metabolism by the liver of forage- and forage–concentrate-fed cattle **48**, 76A, 1989

Nutritional energetics
Brown adipose tissue and nutritional energetics—where are we now? **48**, 165–175, 1989

Nutritional status
Brown adipose tissue: structural changes related to nutritional status in the mouse **48**, 4A, 1989

Obesity
Body fat in lean and obese women measured by six methods **48**, 23A, 1989
Central effects of interleukin-1β and tumour necrosis factor-α on brown adipose tissue thermogenesis in genetically obese rats and mice **48**, 148A, 1989
Corticosteroid inhibition of thermogenesis in obese animals **48**, 231–235, 1989
Effect of a specific α_2-antagonist on weight gain of genetically obese Zucker rats **48**, 164A, 1989
Effect of thyrotropin-releasing hormone and an analogue, RX77368, on thermogenesis and weight gain in genetically obese Zucker rats **48**, 147A, 1989
Effects of cold exposure on mitochondrial GDP binding and uncoupling protein concentration in brown adipose tissue of lean and obese (*ob/ob*) mice **48**, 26A, 1989
Effects of moderate and rapid weight loss on body composition in obese (*fa/fa*) Zucker rats **48**, 28A, 1989
Neuropeptide Y and noradrenaline together cause significant weight loss in obese rats **48**, 40A, 1989
Who drops out of slimming groups? **48**, 124A, 1989
Why is there increased lipid droplet size in brown adipose tissue of genetically obese (*ob/ob*) mice? **48**, 2A, 1989

Obituary notice
Obituary notice, Ethel Cruickshank (14 November 1898–17 January 1989) **48**, 153–154, 1989
Obituary notice, Russell J. Allen (1914–1989) **48**, 313, 1989

Occupation
Body mass index in a sample of Filipino adults in relation to broad occupational categories **48**, 127A, 1989

Old age
Effect of cigarette smoking and age on selenium status **48**, 59A, 1989
Failure to detect hypermetabolism in elderly mental patients suffering acute wasting **48**, 152A, 1989
The iron status of healthy, housebound, and hospitalized elderly women **48**, 67A, 1989

Overfeeding
The effect of overfeeding following cold-acclimation on energy balance and brown adipose tissue thermogenesis in mice **48**, 12A, 1989

Oxen
The metabolic rate of oxen after work **48**, 153A, 1989
The underlying 'resting' energy consumption of oxen during work **48**, 154A, 1989

Oxygen concentration
Extracellular proteolytic activity of hyperoxic-exposed preterm guinea-pigs **48**, 81A, 1989
Inflammation associated with oxygen injury in the preterm guinea-pig **48**, 60A, 1989

Pancreatic supplements
Faecal energy, fat and nitrogen losses in patients with cystic fibrosis using pancreatic replacement therapy **48**, 57A, 1989

Parenteral nutrition
Cardiac complications of total parenteral nutrition—the role of echocardiography **48**, 121A 1989
Copper balance in intravenously fed patients **48**, 114A, 1989
Energy metabolism and fuel selection during high-energy feeding: a case study **48**, 77A, 1989
How can selenium deficiency be detected in patients on home parenteral nutrition? **48**, 122A 1989
The effect of amino acids on the stability of total parenteral nutrition mixtures **48**, 118A, 1989

The effect of total parenteral nutrition on protein synthesis in endotoxaemic rats **48**, 56A, 1989
The value of home parenteral nutrition in Crohn's disease **48**, 120A 1989
Thermogenic response to parenteral nutrition in septic man **48**, 72A, 1989
Urinary excretion of 5-oxoproline in severe inflammatory illness **48**, 75A, 1989
When, why and which home parenteral nutrition patients die? **48**, 119A, 1989

Pectin
Manipulation of rat caecal metabolism by including Avoparcin and pectin in the diet **48**, 139A, 1989

D-Penicillamine
The effect of D-penicillamine with and without xylazine on copper excretion by sheep **48**, 159A, 1989

Phytate
The effects of fibre and phytate on zinc absorption in normal subjects **48**, 115A, 1989

Polymyxin B
Polymyxin B suppresses the stimulation of lipogenesis in brown adipose tissue of rats after an oral load of glucose **48**, 42A, 1989

Polyunsaturated fatty acids
Polyunsaturated fatty acid (PUFA) content of rabbit meat: a potential source of PUFA for human nutrition **48**, 5A, 1989
The effects of acute and chronic ingestion of *n*-3 and *n*-6 polyunsaturated fats on ethanol-induced gastric haemorrhage in the rat **48**, 15A, 1989

Ponies
Voluntary food intake and digestion of hay and straw diets by donkeys and ponies **48**, 169A, 1989

Propionate production
Rumen propionate production rate and absorption of fermentation end-products into the portal vein of forage and forage–concentrate fed cattle **48**, 143A, 1989

Prostaglandin E_2
Effects of vitamin E on prostaglandin E_2 production from skeletal muscle **48**, 166A, 1989

Prostaglandins
Leukotrienes and prostaglandins may be involved in the hypothermic effects of recombinant tumour necrosis factor α in rats **48**, 112A, 1989

Protein intake
The effect of the level of dietary protein and the quality of dietary energy on urea kinetics in young children recovering from severe malnutrition **48**, 55A, 1989

Protein metabolism
An animal model of injury: the value of turpentine injections for studying the acute phase changes in tissue protein metabolism **48**, 79A, 1989

Protein supply
Optimizing amino acid and protein supply and utilization in the newborn **48**, 293–301, 1989

Protein synthesis
Cytokine regulation of acute-phase protein synthesis by human hepatocytes **48**, 110A, 1989
Lack of insulin stimulation of skeletal muscle protein synthesis in type I diabetic subjects during amino acid infusion **48**, 100A, 1989
The determination of tumour protein synthesis rates in patients with colorectal carcinoma using the 'flooding dose' technique **48**, 101A, 1989
The effect of total parenteral nutrition on protein synthesis in endotoxaemic rats **48**, 56A, 1989
Tumour necrosis factor α affects protein synthesis in liver and skeletal muscle but not skin of Wistar rats **48**, 58A, 1989

Protein turnover
Accelerated protein turnover during muscle wasting in the chronically vitamin-E-deficient rat **48**, 62A, 1989
Effect of maintenance feeding and compensatory growth on hind-limb muscle protein metabolism of lambs during subsequent refeeding **48**, 63A, 1989
Increased protein turnover with normal energy metabolism in response to feeding in patients with lung cancer **48**, 102A, 1989
Post-absorptive whole-body protein turnover in surgical patients formerly maintained on a constant diet **48**, 53A, 1989
The effect of growth hormone on hind-limb muscle protein metabolism in growing lambs **48**, 96A, 1989
Whole-body protein turnover and skeletal muscle protein synthesis in small-cell lung cancer patients of normal weight **48**, 49A, 1989

Pseudo-germ-free rat
Electrogenic ion secretion in the small intestine of the pseudo-germ-free rat **48**, 17A, 1989
Secretion in the colon of the pseudo-germ-free rat **48**, 90A, 1989

Purine nucleotides
Studies on the purine nucleotide binding site of the uncoupled protein of brown adipose tissue mitochondria **48**, 22A, 1989

Pyridone
Breakdown of 3-(OH)-4-(1H)-pyridone by bacteria from the rumen of sheep in Venezuela **48**, 168A, 1989

Questionnaire
How comparable are the results of a food frequency questionnaire to a 24 h diet record? **48**, 125A, 1989

Rabbit meat
Polyunsaturated fatty acid (PUFA) content of rabbit meat: a potential source of PUFA for human nutrition **48**, 5A, 1989

Rabbits, farmed
Nutrition of farmed rabbits **48**, 93–101, 1989

Rabbits, wild
Nutritional ecology of the wild rabbit—an input to the timing of reproduction **48**, 81–91, 1989

β Receptor agonist
Some effects of β receptor agonists and antagonists on oxygen consumption and lipolysis in brown adipocytes of the neonatal rabbit **48**, 36A, 1989
Reproduction
Nutritional ecology of the wild rabbit—an input to the timing of reproduction **48**, 81–91, 1989
Rheumatic diseases
Modification of rheumatic symptoms by diet and drugs **48**, 363–369, 1989
Rumen micro-organisms
Breakdown of 3-(OH)-4-(1H)-pyridone by bacteria from the rumen of sheep in Venezuela **48**, 168A, 1989
Russell J. Allen
Obituary notice, Russell J. Allen (1914–1989) **48**, 313, 1989
Saliva
Uric acid and allantoin in plasma and saliva of sheep **48**, 88A, 1989
Satiety in ruminants
Results refuting volatile fatty acids *per se* as signals of satiety in ruminants **48**, 3A, 1989
School meals
The nutritional intake of schoolchildren in Northern Ireland—a comparison of two school-meal systems **48**, 74A, 1989
Selenium
Effect of cigarette smoking and age on selenium status **48**, 59A, 1989
Selenium content of commercial dietetic products used in the Irish Republic **48**, 33A, 1989
Selenium deficiency
How can selenium deficiency be detected in patients on home parenteral nutrition? **48**, 122A 1989
Sepsis
Effect of systemic infection on intestinal permeability in man **48**, 80A, 1989
Thermogenic response to parenteral nutrition in septic man **48**, 72A, 1989
Urinary excretion of 5-oxoproline in severe inflammatory illness **48**, 75A, 1989
Water and ion redistribution in sepsis does not result in hyponatraemia **48**, 104A, 1989
Serotonergic system
Enhanced thermogenic effects of D-fenfluramine following neurotoxic lesions of central 5-hydroxytryptamine in the rat **48**, 38A, 1989
Sex differences
Sex differences in blood antioxidant enzyme activities in human beings **48**, 35A, 1989
Skinfold thickness
Comparison of electrical impedance and skinfold techniques to measure body fat **48**, 107A, 1989
Slimming groups
Who drops out of slimming groups? **48**, 124A, 1989
Small intestine
Electrogenic ion secretion in the small intestine of the pseudo-germ-free rat **48**, 17A, 1989
The effect of acute undernutrition on rat jejunal and ileal secretion in vitro **48**, 78A, 1989
The effects of dietary ligands and zinc uptake by brush-border-membrane vesicles **48**, 145A, 1989
Sodium bicarbonate
Sodium bicarbonate and calcined magnesite supplementation for lactating dairy cows **48**, 9A, 1989
Soft drinks
The acute effects of two fruit-based soft drinks on blood acid-base status **48**, 171A, 1989
Soluble bolus
A novel, sustained-release rumen bolus for cattle, containing trace elements and vitamins **48**, 89A, 1989
Assessing the efficacy of a soluble glass bolus as a slow-release source of copper, cobalt and selenium for sheep **48**, 86A, 1989
Starvation
Effect of 48 h starvation on the physiological response to food ingestion in normal weight women **48**, 133A, 1989
Starvation reduces the rate of oxidation but not the rate of storage of infused glucose **48**, 103A, 1989
The effect of acute food deprivation on contractile characteristics of rat skeletal muscles **48**, 167A, 1989
Sugar
Nutrient intakes of high- and low-sugar consumers during pregnancy **48**, 46A, 1989
Patterns of food and nutrient intake in the chronically unemployed consuming high and low levels of table sugar **48**, 132A, 1989
Surgery
Post-absorptive whole-body protein turnover in surgical patients formerly maintained on a constant diet **48**, 53A, 1989
The effects of metabolic consequences of surgery on post-operative mobility **48**, 109A, 1989
The influence of epidural analgesia on post-operative fatigue **48**, 108A, 1989
The plasma interleukin-6, interleukin-1 and tumour necrosis factor response to elective surgery **48**, 111A, 1989
Thermogenesis
Activation of non-shivering thermogenesis, brown adipose tissue respiration and uncoupling protein by short daily cold exposure **48**, 44A, 1989
Acute central effects of interleukin-6 on body temperature, thermogenesis and food intake in the rat **48**, 48A, 1989
Corticosteroid inhibition of thermogenesis in obese animals **48**, 231–235, 1989
Effect of fasting and refeeding on uncoupling protein-mRNA levels in rat brown adipose tissue **48**, 24A, 1989
Thermogenic response to parenteral nutrition in septic man **48**, 72A, 1989

Thyrotropin-releasing hormone
Effect of thyrotropin-releasing hormone and an analogue, RX77368, on thermogenesis and weight gain in genetically obese Zucker rats **48**, 147A, 1989

Tremor
Effect of food intake on orthostatic tolerance and finger tremor in healthy young subjects **48**, 134A, 1989

3,5,3′-Triiodothyronine
Effects of treatment with 3,5,3′-triiodothyronine and clenbuterol on skeletal and cardiac muscle mass in the rat **48**, 165A, 1989

Tumour necrosis factor
Central effects of interleukin-1β and tumour necrosis factor-α on brown adipose tissue thermogenesis in genetically obese rats and mice **48**, 148A, 1989
Effect of tumour necrosis factor α on temperature and zinc metabolism in weanling, young, adult and elderly rats **48**, 162A, 1989
Effect of tumour necrosis factor α (TNF α–cachectin) on lipid metabolism during litter-removal in the lactating rat **48**, 61A, 1989
Hypothermic and pyrogenic effects of recombinant tumour necrosis factor α in rats **48**, 18A, 1989
Leukotrienes and prostaglandins may be involved in the hypothermic effects of recombinant tumour necrosis factor α in rats **48**, 112A, 1989
Modification of the metabolic effects of recombinant human tumour necrosis factor α by diets rich in coconut oil **48**, 69A, 1989
The effect of recombinant human tumour necrosis factor and lymphotoxin on the sympathetic firing rate of efferent nerves to brown adipose tissue **48**, 50A, 1989
The plasma interleukin-6, interleukin-1 and tumour necrosis factor response to elective surgery **48**, 111A, 1989
Tumour necrosis factor α affects protein synthesis in liver and skeletal muscle but not skin of Wistar rats **48**, 58A, 1989
Tumour necrosis factor α enhances hepatic metallothionein-I content but reduces that of the kidney **48**, 64A, 1989

Turpentine-induced inflammation
An animal model of injury: the value of turpentine injections for studying the acute phase changes in tissue protein metabolism **48**, 79A, 1989
Effect of endotoxin and turpentine injections on intestinal permeability in the rat **48**, 82A, 1989
The effect of a turpentine-induced inflammatory response or triple hormone infusion on energy expenditure in rats **48**, 70A, 1989

Ulcerative colitis
Inflammatory bowel disease: nutritional implications and treatment **48**, 355–361, 1989

Uncoupling protein
Activation of non-shivering thermogenesis, brown adipose tissue respiration and uncoupling protein by short daily cold exposure **48**, 44A, 1989
An enzyme-linked immunosorbent assay for the measurement of uncoupling protein in brown adipose tissue **48**, 20A, 1989
Effect of fasting and refeeding on uncoupling protein-mRNA levels in rat brown adipose tissue **48**, 24A, 1989
Studies on the purine nucleotide binding site of the uncoupling protein of brown adipose tissue mitochondria **48**, 22A, 1989

Undernutrition
Fetal glucose metabolism during maternal exercise and undernutrition in pregnant ewes **48**, 93A, 1989
The effect of acute undernutrition on rat jejunal and ileal secretion in vitro **48**, 78A, 1989

Unemployment
Patterns of food and nutrient intake in the chronically unemployed consuming high and low levels of table sugar **48**, 132A, 1989

Urea absorption
Urea absorption by the functioning human colon **48**, 117A, 1989

Urea kinetics
The effect of the level of dietary protein and the quality of dietary energy on urea kinetics in young children recovering from severe malnutrition **48**, 55A, 1989

Uric acid
Uric acid and allantoin in plasma and saliva of sheep **48**, 88A, 1989

Vitamin B_{12}
Folic acid and vitamin B_{12} status of a sample of the Northern Ireland population **48**, 27A, 1989
Towards an optimum oral dose of cobalt in anthelmintics in lambs **48**, 87A, 1989

Vitamin B_{12} deficiency
Methylmalonic acid as an indicator of vitamin B_{12} deficiency in lambs fed on a cereal-based diet **48**, 142A, 1989

Vitamin D
Unidirectional calcium fluxes across the isolated rumen mucosa of goats as affected by 1,25-$(OH)_2D_3$ **48**, 163A, 1989

Vitamin deficiency
Does subclinical vitamin deficiency predispose to infection? **48**, 113A, 1989

Vitamin E
Effects of vitamin E on prostaglandin E_2 production from skeletal muscle **48**, 166A, 1989

Vitamin E deficiency
Accelerated protein turnover during muscle wasting in the chronically vitamin-E-deficient rat **48**, 62A, 1989

Vitamins
A novel, sustained-release rumen bolus for cattle, containing trace elements and vitamins **48**, 89A, 1989

Volatile fatty acids
Diurnal variation in large bowel metabolism in rats given diets with and without wheat bran **48**, 52A, 1989
Effects on volatile fatty acid production and gut epithelial proliferation of adding haricot beans to a wholemeal bread diet **48**, 47A, 1989
Results refuting volatile fatty acids *per se* as signals of satiety in ruminants **48**, 3A, 1989

Water absorption
Absorption of deuterium from an orally ingested isotonic carbohydrate–electrolyte solution and a carbonated, low-alcohol drink **48**, 97A, 1989
Improved absorption rates of water and electrolytes from a hypotonic solution compared with two isotonic oral rehydration solutions in the intact human jejunum **48**, 144A, 1989

Weighed dietary records
The use of weighed dietary records and the doubly-labelled ($^2H_2{}^{18}O$) water method to compare energy intake and expenditure **48**, 21A, 1989

Weight gain
Effect of a specific α_2-antagonist on weight gain of genetically obese Zucker rats **48**, 164A, 1989

Weight loss
Effects of moderate and rapid weight loss on body composition in obese (*fa/fa*) Zucker rats **48**, 28A, 1989

Zinc
Comparison of iron and zinc absorption in rat pups from human milk extrinsically labelled with ^{59}Fe and ^{65}Zn **48**, 39A, 1989
Effect of physiological ligands on zinc uptake by syncytiotrophoblast microvillous plasma membrane vesicles from human placenta **48**, 37A, 1989
Effect of tumour necrosis factor α on temperature and zinc metabolism in weanling, young, adult and elderly rats **48**, 162A, 1989
Effects of dietary changes in zinc and copper levels on rabbit liver metallothionein-like protein **48**, 13A, 1989
Hypothermic and pyrogenic effects of recombinant tumour necrosis factor α in rats **48**, 18A, 1989
The effect of in vitro zinc deficiency on Zn and copper ion concentration and intracellular enzyme activity in Molt-3 cells **48**, 161A, 1989
The effects of dietary ligands and zinc uptake by brush-border-membrane vesicles **48**, 145A, 1989

Zinc absorption
The effects of fibre and phytate on zinc absorption in normal subjects **48**, 115A, 1989
